Bachelor of PUBLIC HEALTH

Gain the knowledge and skills to address global health challenges. From disease prevention to health promotion, this program is your gateway to improving lives at the community level. Many medical schools recognize this degree as an excellent pre-med qualification, paving the way to becoming a medical doctor.

CAREER PATHWAYS

- Health Promotion Strategist
- Community Health Specialist
- Health Program Coordinator

Bachelor of Science in OCCUPATIONAL HEALTH AND SAFETY

Learn to identify workplace risks and create safer environments. This program equips you with the expertise to protect workers and foster a culture of safety across industries. By Thai law, many industries are required to employ health and safety officers, ensuring a high demand and abundant job opportunities in this field.

CAREER PATHWAYS

- Safety Officer
- Compliance Manager
- Industrial Hygienist

Accredited by:
**COUNCIL OF COMMUNITY-PUBLIC HEALTH
AND MINISTRY OF LABOUR, THAILAND**

Master of PUBLIC HEALTH

Designed for professionals ready to take the lead, this program prepares you to tackle complex health issues on a global scale. Specialize in areas like epidemiology, global health, or health policy and management.

CAREER PATHWAYS

- Epidemiologist
- Health Policy Advisor
- Public Health Consultant

DISEASE PREVENTION AND CONTROL TRAINING

Be at the frontline of Public Health challenges:

- Epidemiology Workshops
- Emergency Response Preparedness
- Health Education Campaigns
- Environmental Health Focus
- Immunization Program Design

LEARN BEYOND THE CLASSROOM

- Gain real-world insights through internships with leading health organizations in Thailand.
- Collaborate on impactful research addressing public health issues.
- Stay ahead with training led by industry experts and academics.
- Participate in health camps, outreach programs, and safety audits.
